

# Breast Cancer Resources

PMH

## Breast Cancer.org

[www.breastcancer.org](http://www.breastcancer.org)

An American non-profit organization dedicated to education surrounding breast cancer issues. Features of this site include a talking dictionary with celebrity voices, chat rooms and discussion areas with the participation of leading oncologists, anatomy pictures and a variety of support information.

## Canadian Breast Cancer Foundation

<http://www.cbcf.org>

The Canadian Breast Cancer Foundation is the largest charitable organization in Canada dedicated exclusively to the support and advancement of breast cancer research, education, diagnosis and treatment.

## Canadian Breast Cancer Network

<http://www.cbcn.ca>

A survivor-directed, national network of organizations and individuals, providing a national link between all groups and individuals concerned about breast cancer.

## Caring Voices

<http://caringvoices.ca>

An online community for breast cancer survivors where you can meet other breast cancer survivors and share experiences. You can access current information and resources about breast cancer and view topic specific forums. Registered users can take part in online chats, professionally moderated discussions and contribute to forum topics.

## Male Breast Cancer Resource List

[www.willow.org/files/resources/Diagnosis/MaleBreastCancer.pdf](http://www.willow.org/files/resources/Diagnosis/MaleBreastCancer.pdf)

This is a link to a resource list containing titles of books and online resources dealing with male breast cancer.

## **Metastatic Breast Cancer Resource List**

[www.willow.org/files/resources/MetastaticBreastCancer/MetastaticBreastCancer.pdf](http://www.willow.org/files/resources/MetastaticBreastCancer/MetastaticBreastCancer.pdf)

This is a link to a resource list containing titles of books, videos, and websites dealing with metastatic breast cancer

## **Nanny Angel Network**

<http://www.nannyangelnetwork.com/>

This is a non-profit organization that provides professional nanny volunteering to help with relief childcare. This service is available for free to families with children under 12 years old whose moms are currently in treatment or who are in the early stages of recovery.

## **Rethink Breast Cancer**

<http://www.rethinkbreastcancer.com/>

This organization helps young people who are affected by breast cancer. Provides information on support, research, and awareness.

## **UHN Breast Restoration Program**

<http://www.breastrestitution.ca/>

The Breast Restoration Program at University Health Network provides comprehensive treatment to post-mastectomy patients from all over Canada. This website contains information about the program, research and education, various reconstruction procedures, and a photo gallery.

## **University Health Network – Health Information**

[http://www.uhn.ca/Patients & Visitors/health\\_info/index.asp](http://www.uhn.ca/Patients_&Visitors/health_info/index.asp)

This site represents health information gathered by professionals at the three hospitals comprising the University Health Network. The “List of Topics” allows you to search for information by the name of the condition, “Support & Information Groups” directs you towards community agency’s that specialize in different areas. This site also provides access to the Breast Cancer Survivorship Booklet.

## **Willow: Ontario Breast Cancer Support and Resource Centre**

<http://www.willow.org/>

Willow is a support and resource service linked to a network of support groups. Breast cancer survivors serve as trained volunteers to listen, to answer questions and clarify treatment options, and to provide support to women with breast cancer, their families and friends. The web site contains information about their program, the services they provide, Ontario network support groups, upcoming events and links to other resource sites.

## **Women's Cancer Network (WCN)**

<http://wcn.org>

The WCN mission is to assist women who have developed cancer, as well as their families, to understand more about the disease, learn about treatment options, and gain access to new or experimental therapies.
