

# Happy Pride Month!

The Princess Margaret Cancer Centre is working to create an inclusive cancer care experience for patients who identify as 2SLGBTQIA+

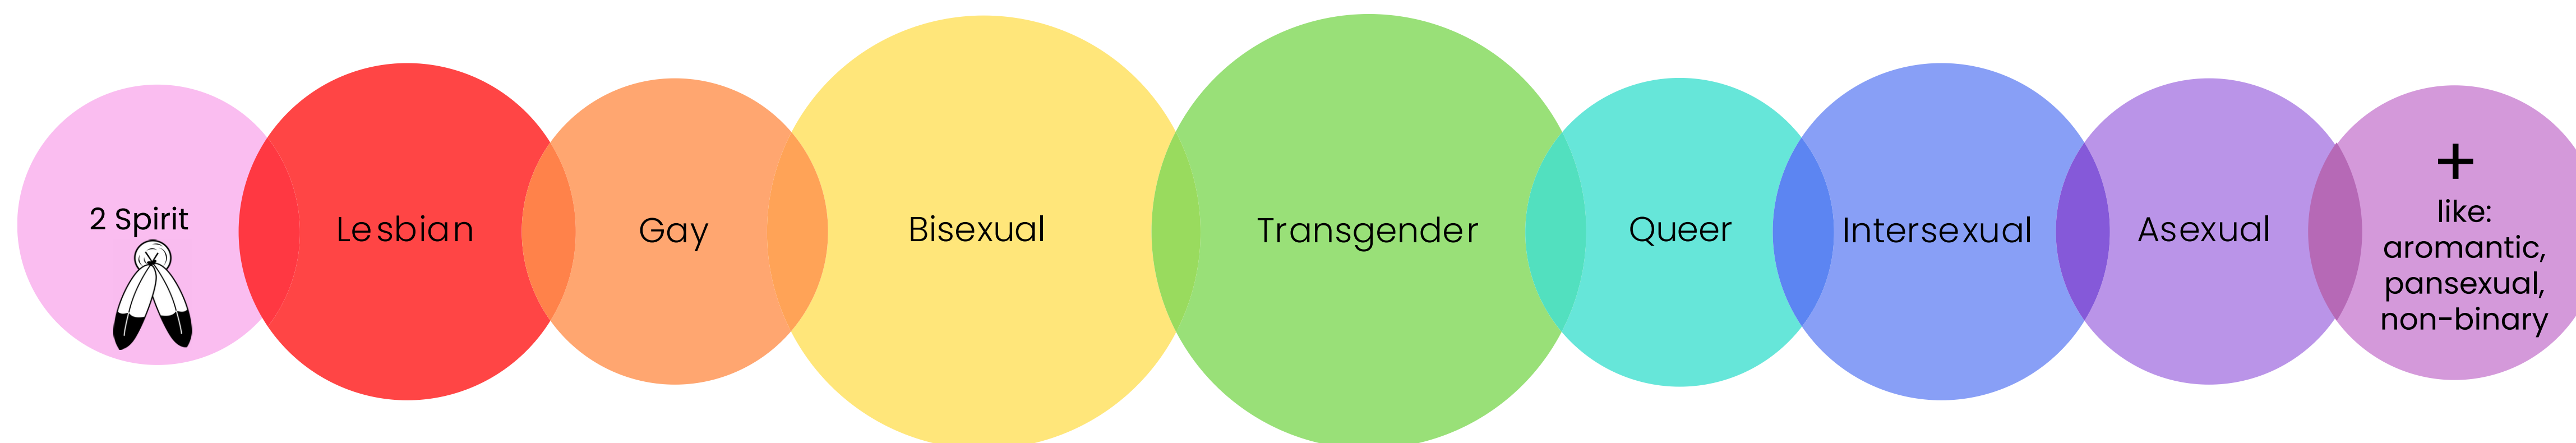

**@PMChosenFamily**  
Sexual and Gender Diversity in Cancer Care

# 2SLGBTQIA+ Stands For:

---

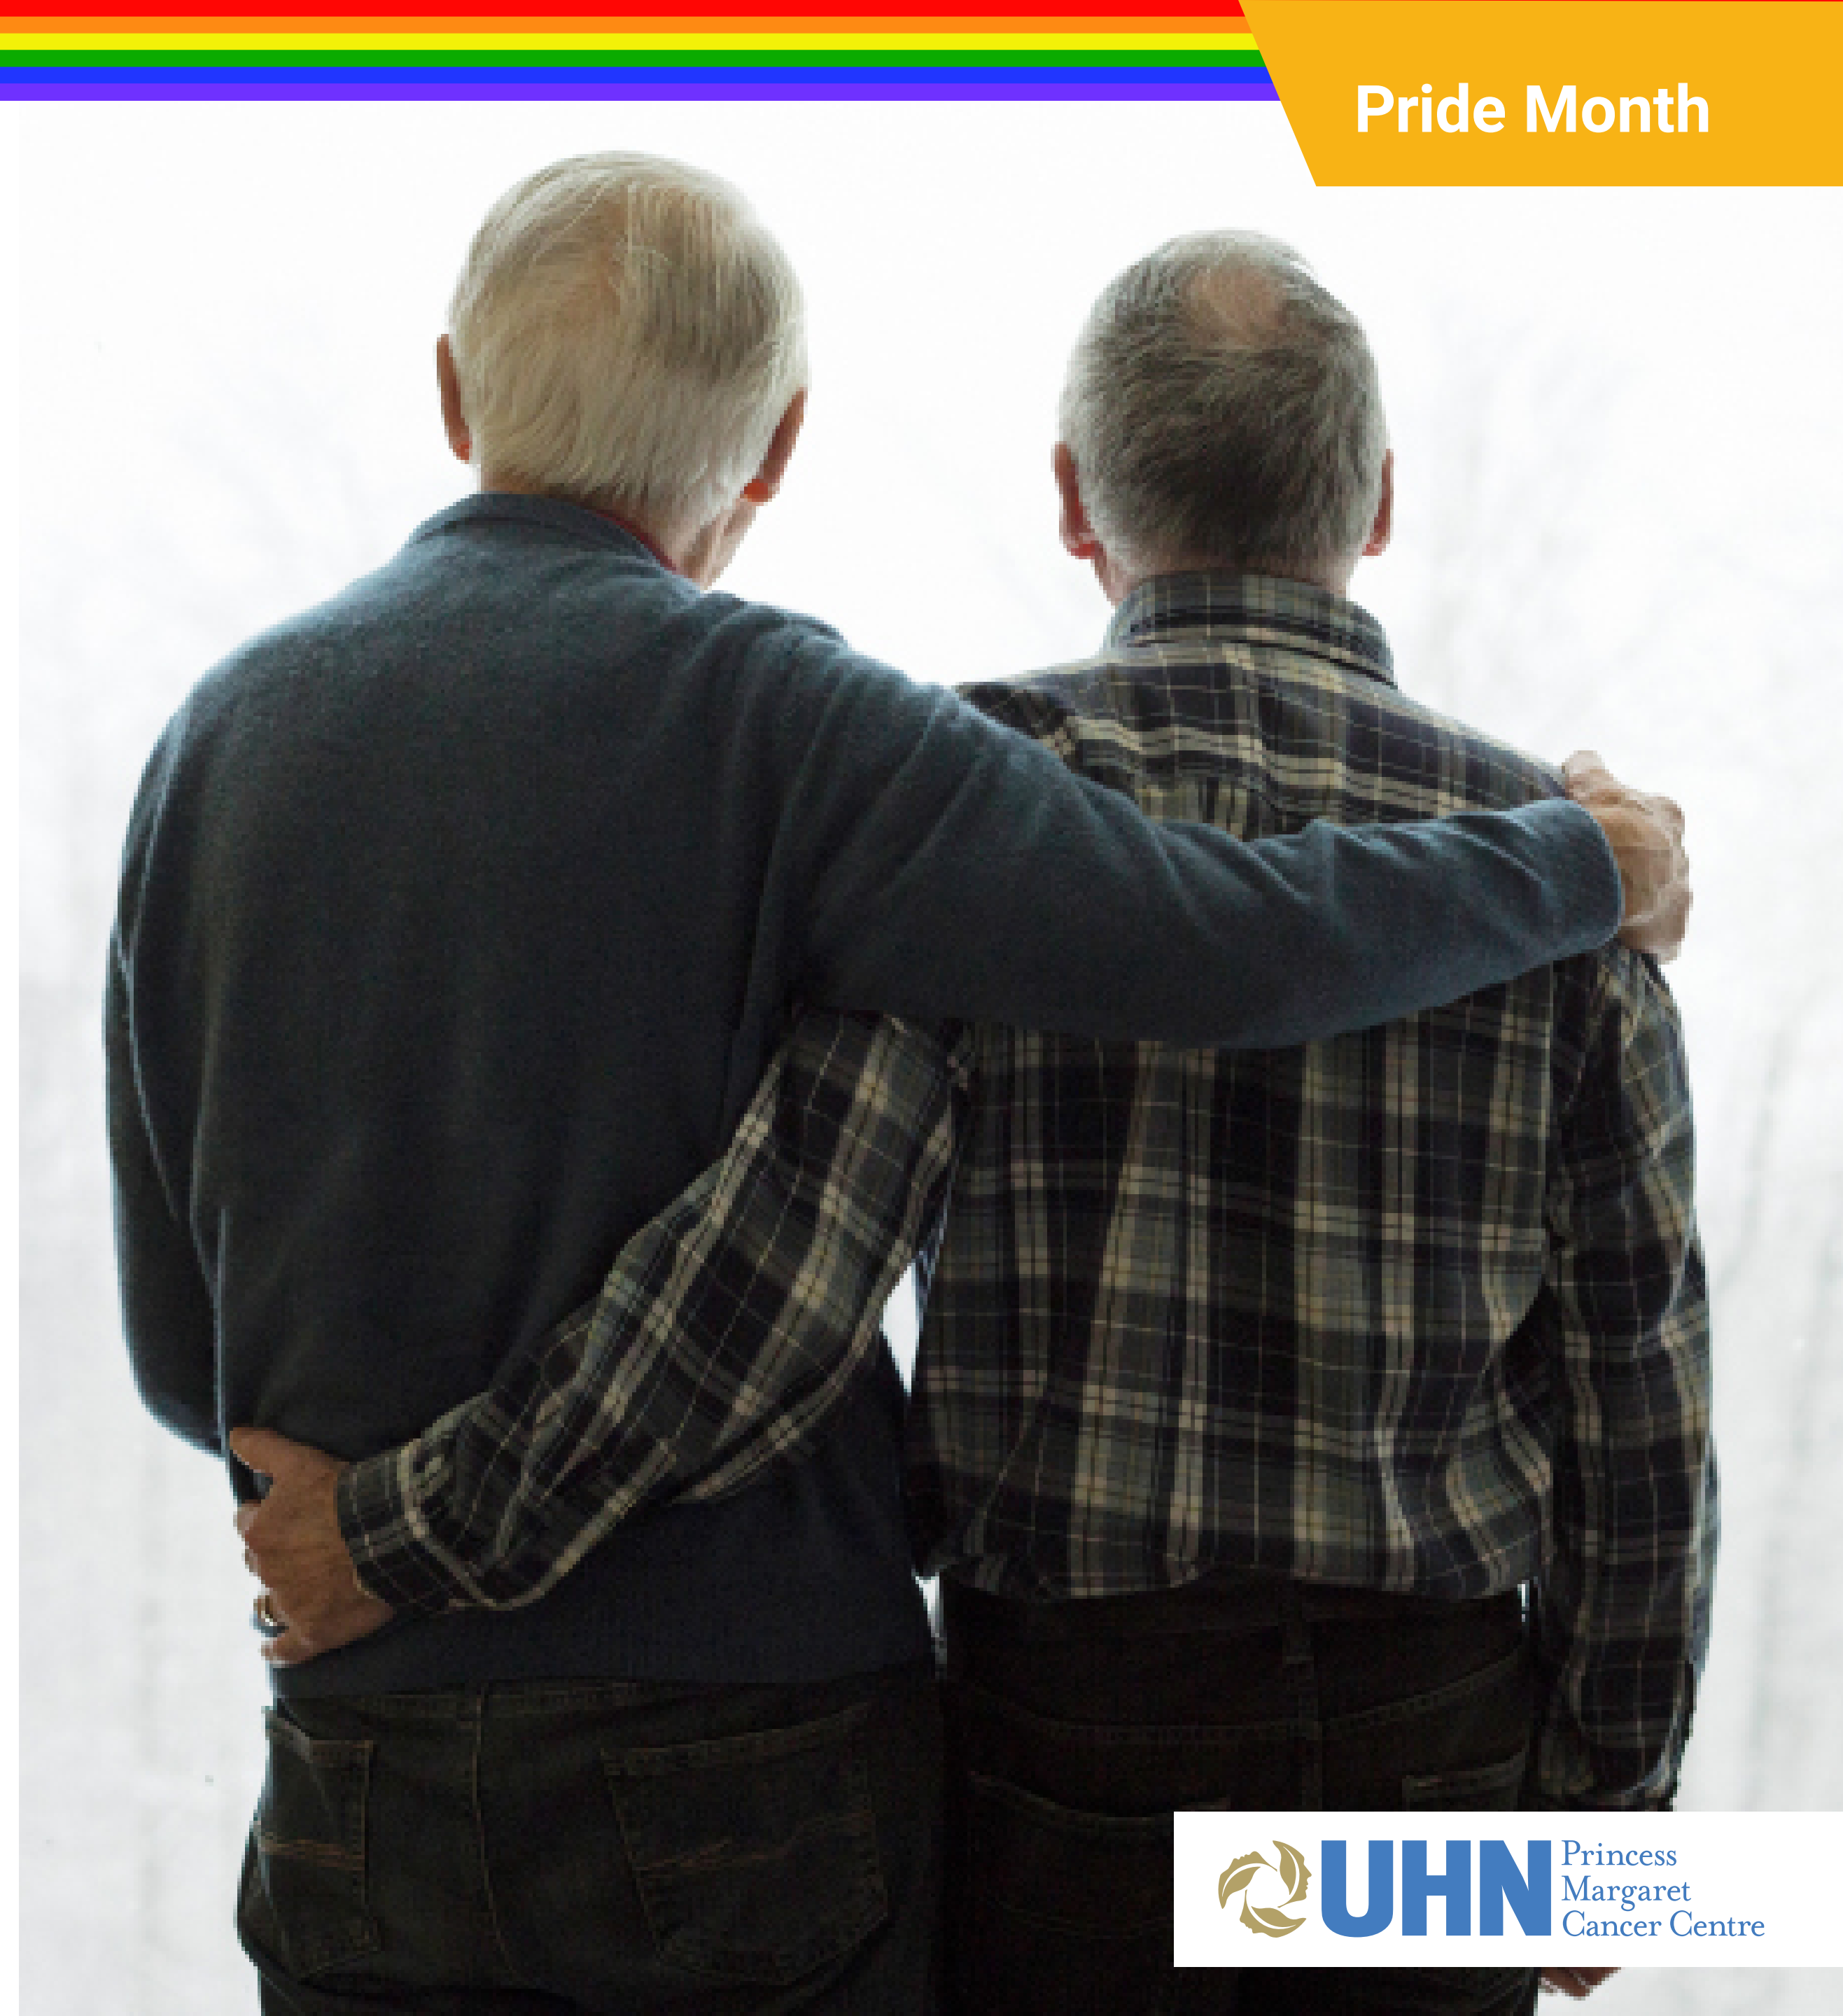

## 2SLGBTQIA+ patients may have questions and concerns about their cancer care

---

### Questions and concerns like:

- Should I tell staff I identify as 2SLGBTQIA+?
- Will I be able to find an all-gender washroom?
- Will my caregivers and chosen family be welcome?
- Will people use my correct pronouns and the correct name that I use?
- Will I get information and resources relevant to my sexual orientation and gender identity?
- Will I have access to 2SLGBTQIA+ identified staff?

# Pronouns

---

The Princess Margaret Cancer Centre works to provide care that is inclusive of all our patients.

Many staff wear a pronoun button, rainbow lanyard, or both to show support to our 2SLGBTQIA+ patients.

Staff do not know a person's pronouns by their name or how they look. Staff will often introduce themselves by sharing their name and pronouns. You can share your pronouns so that staff can refer to you correctly.

It is your choice if you would like to share your pronouns.

# The Princess Margaret Welcomes Your Chosen Family

The people in your life who support you are important. At the Princess Margaret, your health care team knows the role your loved ones have in your care.

The people who support you, your biological family or your chosen family, are welcome, included and involved in your care at the Princess Margaret.

# The Sexual Gender Diversity in Cancer Care Program (SGDc)

## How we can work with you:

- **Information:** Provide cancer information and support specific to 2SLGBTQIA+ patients, caregivers and chosen families
- **Navigation:** Help you to make sense of and move through the cancer care system
- **Connection and Supports:** Connect you with supports and services tailored to your needs
- **Counselling and Groups:** Individual 2SLGBTQIA+ informed counselling and support groups
- **Finding your pride:** Help you to find your communities and identify your unique strengths

**Taking pride in caring for 2SLGBTQIA+ patients and chosen families**
