

UHN International Centre
for Education

Transitions Program

For New Internationally
Educated Clinical Fellows

Program goals are to:

- Empower you with the knowledge needed for Canadian fellowship training
- Connect you to a community of practice
- Enhance your performance by learning about the Canadian work environment, expectations and available resources to support you

Online Resources & Virtual Sessions

Settling in Canada

Regulatory registrations, e.g. CPSO, housing, finances, bringing family and pets, social networking and overview of the Canadian health care system

Communication

Person-centered care, introduction to collaborative communication with patients and team members

Social Determinants of Health

Understanding underlying determinants of health in providing quality care to Canadians

Team-Based Care

Understanding your role on the team, other team roles, and collaborative team functioning

Bioethics & Patient Safety

Foundations in principles of bioethics in Ontario, quality care and patient safety concepts

Wellness

Tools for building resiliency to stress and understanding resources available.
