

Welcome to the **Rossy Progressive Supranuclear Palsy (PSP) Centre**. We are a highly specialized team of healthcare professionals conducting intensive **clinical care** and **research** in order to advance knowledge of PSP and related disorders.

We look forward to treating you and learning from you.

Why am I referred to the Rossy PSP Centre?

As a patient diagnosed with PSP or a related disorder, we believe it is important that you receive specialized care. As part of our program you are moving knowledge forward and contributing to advancements in the field.

What happens at my appointment?

Our team will assess the state of your condition and conduct other specific tests such as a memory test or collect bio-samples such as a blood test. These assessments will provide a full clinical picture to help the doctors understand you and your condition better.

When and where will my appointments be?

Your appointments will be at the Movement Disorders Clinic at Toronto Western Hospital, scheduled for every 6 months. Virtual/remote appointments via Ontario Telehealth Network may be an option.

Is there anything extra that I must do?

There is nothing extra that you must do as a patient of our program. However, if there are questionnaires or tests you are asked to complete ahead of time, it is recommended that you do so before your appointment so that we are able to provide you with the proper care.

Who do I contact?

Appointments:

Please call Tel: (416) 603 6422

Questions about the program:

Please call Puja Bhakta

Tel: (416) 603-5800 ext. 5234

Email: rossypsp@uhn.ca
