

Building a Better Bickle

A message to our patients and families

Our journey to renewal

Spring has arrived and construction on *Building a Better Bickle* is well underway! Just a few short months ago, the Bickle Centre embarked on an exciting project to refresh our building.

Not only will we create an environment that inspires health and wellness, but we will be introducing new features including:

- new in-patient night dialysis unit;
- bright common areas with improved functionality; and
- improved therapy areas.

This \$32.3 million, multi-phased project is solely focused helping our staff, provide patients like you, the very best care.

We appreciate construction can be disruptive to patients, staff and visitors alike. Our entire construction project is guided by the premise of minimizing the impact to our patients and families and trying to move as quickly and efficiently as possible throughout each phase. If you have any questions or concerns about construction, please don't do not hesitate to contact a member of your care team. Up to date information can also be found on our construction web page found on uhn.ca under our hospitals. You can also email us at:

tri-bicklerenovationquestions@uhn.ca

We sincerely thank you for your support and patience and commit to listening and keeping you informed!

On The Move

February 3:

- **Level 3 south** has moved to level 4 north.

March 17:

- **Occupational Therapy** and **AAC** clinic have moved to the main level, north wing.

May 30:

- **Hairdresser** (currently room 207) will move to room N215.

June 1:

- **Food Services** area in basement will move to the main floor, room 207. This will be the permanent new home for Food Services and will contain vending machines that will serve hot and cold food, snacks, cold drinks and hot drinks. There will also be microwaves and a sink.
