

UHN Monthly Health Talks cancelled until further notice

Due to the growing concern around spread in the community of the novel coronavirus (COVID-19), we have made the difficult decision to **temporarily stop the Monthly Health Talk program.**

This means that our **Tuberculosis session on Friday, March 27th has been cancelled.**

All of our future sessions are also on hold until further notice.

We will closely follow the situation and seek advice from our hospital and public health leadership. We will let you know when our Health Talk schedule resumes. We know how much our patients, their families, and community members enjoy attending and learning from these sessions, but your health, and the health of our other patients, families and staff, is our priority.

Exploring Virtual Health Talks as a Temporary Option

We are exploring other ways to offer these sessions, such as through videos and livestream webcasts. Please let us know if you have **feedback about watching health talks online**, and how we may be able to make this more accessible to you, by filling out this survey: [Virtual Monthly Health Talk Survey](#)

Questions?

Please email Melissa.Yan@uhn.ca or call 416 597 3422 ext. 3626.
