

You can now view your COVID-19 test results online with the UHN COVID-19 Result Viewer. You do not need to create a myUHN Patient Portal account.

To use the Results Viewer you need your:

- Date of birth
- Test date
- UHN Medical Record Number (MRN), provided at your visit

What do I need to know about the Results Viewer?

- The Results Viewer only shows test results from the past 30 days.
- It may take 12 to 48 hours to receive your test result.
- People who test positive for COVID-19 will see the word “Detected” and receive a follow-up phone call from a UHN health care professional.
- The call may display as “UNIV HLTH NTWK,” “No Caller ID,” or “Unknown Number.” Please answer the call.
- You may see your results before you hear from a health care professional.
- If you need to access other UHN results and appointments, you will need to create a myUHN Patient Portal account.

What if I have a myUHN Patient Portal account?

You can find your COVID-19 test results under “Results and Reports” in your myUHN Patient Portal account. You may also get an email when your results are ready depending on how your notifications are set up.

Who can I speak to if I have questions?

If you have questions about your COVID-19 test result, contact your family doctor. For questions about the Results Viewer or myUHN, please call myUHN Support at 416-340-3777 or email myuhn@uhn.ca. myUHN Support will contact you between 9:00 am and 5:00 pm, Monday to Friday.
