

Contribution to Patient Education and Engagement at Toronto Rehab Award

Thank you! You chose to nominate a Toronto Rehab staff member or team who has shown excellent contribution and commitment to patient education and engagement during the past year.

Patient education and engagement means making sure that you are involved in your care. This is done by providing you with the skills and knowledge to manage your care, make informed decisions and lead a healthy life. This award is given to a staff member or team who has shown a commitment or contribution in one or more of the following:

- Teaching patients or families in one-on-one care and rehab
- Developing education programs for patients or families (including events, education series, or ongoing classes)
- Developing educational materials for patients or families such as brochures or posters
- Demonstrating or teaching patient and family education skills to students or other staff members
- Researching the impact of patient and family education

If you have questions, please contact the Sun Life Patient and Family Resource Centre at 416-597-3422 ext. 3558 or TorontoRehabHealthInfo@uhn.ca.

Please complete the required information below;

We request this information so that we can notify all nominees about this recognition and share your nomination with them. We will also notify you if your nominee is the award recipient.

Please complete the required information below:

Name of Nominee:

Nominee's Profession/Position:

Nominee's Toronto Rehab site/Program:

Your name (or names of all nominators):

Your email address:

Please indicate what teaching activities this individual or team has participated in. Click on all that apply.

- Teaching patients or families one-on-one
- Developing education programs for patients or families (including events, education series, or ongoing classes)
- Developing education brochures, posters, or other resources for patients or families
- Demonstrating patient and family education skills to students or other members of the team
- Implementing continuous professional development or quality improvement initiatives related to patient and family education
- Researching the impact or effectiveness of patient and family education

Other (please specify)

Indicate, with your one best example, the skills this person or team shows when teaching patients and families. Examples of skills could include:

- communicates clearly,
- makes sure you understand your care and what to do next in a comfortable, approachable manner,
- uses plain language,
- considers your information needs and uses different methods and tools to teach you,
- creates a good learning environment, and/or
- makes you feel like you have a role to play in your care.

Maximum 150 word response.

Explain, with your one best example, how the staff member or team exhibits a passion for and a commitment to teaching patients and their families. What qualities show you that they are enthusiastic about teaching patients and their families? In your example, include how the staff member or team engages with patients, consider patients' own knowledge and health information needs, and addresses their unique learning needs. Maximum 150 word response.

We want to know the impact this staff member or team has had on your learning. Think of a time after working with this individual or team when you felt engaged in your learning and were provided with skills and knowledge to manage your care, make informed decisions and/or lead a healthier life. What did the individual or team do to help you learn? How did this individual or team influence or change your understanding? Maximum 150 word response.

Thank you for taking the time to nominate a Toronto Rehab staff member or team for their outstanding contribution to patient education and engagement. Once nominations close, we will review all nominations and choose an award recipient. We will notify all nominees about this recognition and share your nomination with them.
