

EPR Visit Creation and Activation: Clinic Patients (CP)

 For virtual care¹ patient visits, be sure to create a **telehealth** EPR visit

Process Step	
1	Create EPR visit as per usual process
2	<p>On Clinic Patient (CP) screen:</p> <ul style="list-style-type: none"> • Select field 13* in the CP EPR visit creation screen (field 13 Telehealth videoconference? yes/no) • Set flag to “Yes”
 <p>The screenshot shows the 'Edit/Activate Visit' screen for a patient named 'Test, Ambulatory'. The patient's location is 'discharged CP' and the visit location is 'Gen Surg'. The patient's gender is 'Male' and the attending physician is 'PhysUnknown'. The visit number is '244000201'. The patient's age is '52Y'. The screen displays various fields for the visit, including 'Preadmit Date/Time', 'Visit Date/Time', 'Visit Number', 'Patient Type', 'Visit Location', 'Diagnosis', 'Attending Physician', 'Referring Physician', 'Institution From', 'WSIB', 'Insurance/Payor', 'Comment', 'Oncology Diagnostic Code', and 'Appointment Type'. Field 13, 'Telehealth videoconference?', is highlighted with a red box and set to 'No'.</p>	
3	Activate EPR visit as per usual process
<p>Congratulations: the virtual visit is now activated!</p>	

*Please note that depending on your access the numbering of this field may vary, but the name of the field will always read “Telehealth videoconference?”

¹ UHN approved virtual care platforms covered in the Virtual Care Toolkit include (1) telephone, (2) OTNhub, and (3) Microsoft Teams.
