LEADERS

Upcoming Sessions

Presentation Skills Workshop

Developing a presentation is a deeply personal matter. We've all found ways to prepare that work for us. Presentations Skills provides a practical learning experience that allows you to confirm what's working for you today and identify where and how to make improvements. You will be challenged, stimulated and supported.

DATE & TIME:

April 24th 2019, 8:30am - 5:00pm

PRESENTER:

Jill Hooper, President, Jill Hooper Consulting

LOCATION:

TGH, ELLICSR Boardroom

Seats limited to 8 per workshop.

This session will be offered once every quarter.

“ Jill Hooper’s presentation skills workshop was one of the best, if not the best, workshop that I have ever attended. It has helped me rethink how to deliver presentations. I would strongly recommend that the YL program recruit her back to provide more workshops

Register in Cancer Campus

Princess Margaret Space Transformation

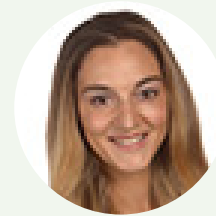

Tom Ehrlich, former Chair of the Foundation Board of Directors and current Co-Chair of The Princess Margaret's \$50 million Space Transformation Campaign, presented to our group on April 10th. As you know, The Princess Margaret is undergoing a major re-development, including the entire main floor and the new gynecologic oncology and palliative care clinics. This initiative is made possible by philanthropy and Tom presented to get our feedback and ideas on fundraising. It was a great discussion!

Stay tuned – we will be reaching out with more information and ideas on how we can help.

Please feel free to contact Andrea Orr at the Foundation at andrea.orr@thepmcf.ca or 416.946.2906 with any questions or thoughts in the meantime.

Insights to Discovery™

Available through the Young Leaders program at no cost to the participants. Next session: May 23rd, 2019 4:30pm-6:30pm. Registration closes April 24, 2019.

The Insight to Discovery course run by Dr. B.A. Millar is a pleasure to attend and incredibly useful, both in terms of personal development and building communication skills. As part of the course you are required to complete an evaluation that will generate a four-part “colour profile” along with a highly insightful personalized report of numerous aspects of your personality, your manner of communicating and interactions with other personality types. While the report is confidential, I let my mother read mine and we were both amazed at the accuracy. The report and course allowed me to build self-awareness, as well as awareness of the other personality types around me and the differences in our preferred manner of communicating. In fact, I was able to return to my workplace and immediately translate the communication strategies I had learned into the real world. While the concepts being presented seem relatively simple, they are eye-opening. By applying what you learn in this course, you are starting on a path towards improved interactions with your colleagues, less frustration and ultimately, greater satisfaction in your workplace.

Access **Young Leaders Program** > **Event Registration**, for more information and to register for the upcoming session.

UICC Young Leaders Programme

Call for Applications: April 25, 2019 – June 16, 2019

www.uicc.org/what-we-do/capacity-building/leadership-development/young-leaders-programme

The Union for International Cancer Control (UICC) Young Leaders Programme is a 12-month leadership development programme for emerging cancer control professionals up to 40 years of age. The 2019-20 programme will commence at the World Cancer Leaders' Summit (WCLS) in Astana, Kazakhstan from 15-17 October 2019. In the 12 months following the WCLS, Young Leaders must identify and attend a relevant cancer event, or organise a learning visit which aligns with their interests and expertise and leads to regional impact, or aims to initiate a regional collaboration. The programme will formally conclude at the World Cancer Congress (WCC) in Muscat, Oman from 19-22 October 2020, where Young Leaders attend and share best practices and lessons learnt through a dedicated session. Following completion of the programme, participants join the existing group of alumni Young Leaders, a proactive community of cancer control professionals who engage with and support UICC's work.

Questions? Contact Danielle Rodin at Danielle.Rodin@rmp.uhn.ca

About the Program

The Young Leaders in Cancer Program provides a structured opportunity for professionals specializing in cancer care to come together to explore important topics in leadership, networking and building capacity within our communities to lead. Princess Margaret Cancer Centre is dedicated to fostering the next generation of Leaders in Cancer Care.

The program is nomination-based and is open to those:

- In formal leadership roles, and those in informal leadership roles responsible for leading significant projects
- Staff at Princess Margaret
- 40 years of age or younger

Members do not have to graduate the program once they are 40 years old. Members elect to graduate when they feel they are ready
