

Guide to Referring a Patient to the Department of Surgical Oncology

Urgent Referral

If your patient needs immediate, urgent care, please call Princess Margaret Locating/Switchboard at 416 946 2000 ext. 3155 for the name and contact information of the surgeon on call.

Standard Referral

To complete a standard referral process, first download, print and complete a Department of Surgical Oncology Referral Form by [Cancer Type](#). You must specify the requested surgical oncologist's name on this form; if you do not know the name of the appropriate surgeon, check the "first available" box. If the referral form is incomplete it may be returned to you with a request for the missing information.

Next, fax the completed form to the requested surgical oncologist. The oncologist's office will send you a "confirmation of receipt" fax and information about appointment timelines within 48 hours.

The surgeon's office will contact you with your patient's appointment information as soon as possible. Your office is responsible for providing the patient with the appointment information, including time, location, and important documents, test results and imaging to take with them.

It is extremely important that you ensure that your patient takes copies of CDs or DVDs of any imaging studies that have been performed, as these will be required at the patient's first appointment.

See the list of [surgical oncologists' site groups and contact information](#).

Site Group Information

Some site groups require site group-specific information; others have specific requirements for referrals.

- **Gastrointestinal:**
 - Not all surgeons perform gastric cancer surgery.
 - Dr. Rebecca Gladdy does not take new rectal cancer cases unless the pathology is sarcoma.
- **Ocular:**
 - Use the Ocular Site Group referral form, not the Surgical Oncology referral form.
 - Include all known details of the diagnosis in the referral letter/consult note.

Checklist for a Complete Referral

In addition to the completed referral form make sure to include:

- Referral letter/consult note
- Imaging reports/test results as applicable or available

If this information is not included with the completed referral form, your referral may be returned as incomplete.
