- Participate in French Language Service (FLS) planning:
 - For identified HSPs that provide services in French, develop a FLS plan and demonstrate yearly progress towards meeting designation criteria.
 - O HSPs that are not identified for the provision of FLS, the expectation is to identify their French-speaking clients. This information is to be used by the HSP to help with the establishment of an environment where people's linguistic backgrounds are collected, linked with existing health services data and utilized in health services and health system planning to ensure services are culturally and linguistically sensitive.

Digital Health: Adopt Digital Health and Information Management initiatives that encompass both provincial and local level priorities as identified by Toronto Central LHIN. This specifically includes, where applicable:

- Adherence to operational privacy and security policies related to the use of regional and provincial health technologies (i.e. RM&R).
